speaker

Dr. Vlasios Kasapakis

Co-funded by  
the European Union

### **Short paragraph about the topic:**

Delve into the transformative realm of Social Virtual Reality Environments for Education. This webinar offers a comprehensive examination of how virtual reality is revolutionizing the educational landscape, enhancing student engagement, and broadening horizons. The webinar will dissect practical applications, advantages, and optimal integration strategies, making it an indispensable resource for educators, administrators, and all enthusiasts invested in the evolution of learning.

### **Short bio of the speaker:**

Dr. Vlasios Kasapakis is currently an Assistant Professor in the Department of Cultural Technology and Communication at the University of the Aegean, Greece. His research interests encompass the fields of mixed/virtual reality and mobile/pervasive computing applications in areas such as cultural heritage, education, communication, and games. He has co-authored over 70 publications on these topics, and he has actively contributed to relevant international conferences and journals as a Technical Program Committee (TCP) member and a guest editor, respectively. Dr. Kasapakis has also played key roles as a coordinator and researcher in research and development projects, securing both national (Greek) and international (European) funding for his work.

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.
