speaker

Momchil Benov

Short paragraph about the topic:

In the webinar, you will get familiarized with our approach to STEAME, meticulously developed by many educators at Prof. Ivan Apostolov Private English Language Secondary School. Presenting all of our integrated innovative school subjects as well as elaborating on staff collaboration and interdisciplinary techniques, we will guide you through our STEAME curriculum. We are also expecting active participation from all of you, as we are ready to answer all of your questions!

Short bio of the speaker:

Mr. Momchil Benov, an educator and researcher in Chemistry and Data Analytics, currently teaches Chemistry in English at "Prof. Ivan Apostolov" Private English Language Secondary School in Sofia, Bulgaria. He holds a Bachelor's degree in Chemistry from Sofia University and is pursuing a Master's in Knowledge Discovery and Big Data Analytics at New Bulgarian University. With experience as a Research Chemist at the Bulgarian Academy of Sciences, focusing on antiviral molecule synthesis, Mr. Benov blends scientific expertise with advanced data analysis skills. Actively engaged in European educational projects, he participates in international conferences and Erasmus+ youth exchanges, demonstrating his dedication to educational innovation and international collaboration.
